FRIDAY, AUGUST 14, 1891.

BINDER TWINE.

During the Budget debate in the House of Commons, the opposition, made a fierce attack on the Government, because they would not consent to a removal of the duty on binder twine, imported from the United States. There is no doubt but that the removal of the duty would mean cheaper twine for the Canadian farmer for a year or two, but in the end the Canadian manufacturer would be crushed out of existence and the farmers placed in the hands of a giant American monopoly. A consideration of the simple facts of the case, will convince the farmers as to the wisdom of the action of the Government. The raw material enters Canada and the United States, free of duty. At the present time, a gigantic syndicate or combine in the United States has secured control of most of the sources of supply and of all the great mills. It has put prices down to a very low figure—below the actual cost of production—in order to crush all competition from small manufacturers. When this is done, the monopoly will be able to charge whatever prices it chooses, and desires to extend the area of its operations by securing control of the Canadian markets. In this they are having the support and sympathy of the Liberal party of Canada, who hope, from the stand they have taken on the question to strengthen their position among the farmers. Taking one year with another, since binder twine has been manufactured in Canada, it has been lower here than it has been in the United States. This fact being known to the farmers they will not be anxious for the sake of a little temporary advantage, to see considerable Canadian industry destroyed.

THE PROPOSED BY-LAW.

In another column will be found a copy of the proposed by-law of the Council of the Municipality of the town of Moose Jaw, which will be submitted to the ratepayers for approval on the fifth day of September next. The object of the by-law is to raise, by the issue of debentures on the corporation, the sum of \$7000, for permanent improvements as stated in the by-law. The ratepayers are requested to carefully study the provisions of the by-law and without prejudice, ask themselves the question:—Will the passing of it be for the best interests of the town? There is at the present time \$2620 due for the Chemical engine purchased by the Council, which must be paid. Whether a Chemical engine is what we want in the way of fire protection or not, does not matter. The engine has been purchased, and the money must be raised either by direct taxation, or in some other way. If raised by direct taxation it will increase the rate by at least 14 mills, and the ratepayers of 1891, be forced to pay for what will be for the benefit of future citizens of the town.

It is proposed to expend \$3500, of the money in the erection and furnishing of a town hall and fire hall. The town has reached a stage in its growth when this is a necessity. The Council have for the past six years, been moving around from place to place and have not as yet been able to secure any permanent place in which to hold meetings, private or public. In that time, at least \$1000 of the ratepayers

money has been paid out for rent. The town officials have been forced to transact public business and keep corporation books and papers in private offices and both they and the ratepayers put to considerable annoyance thereby. In our opinion the time has now arrived when this state of affairs should be ended, and a building erected which besides serving for the purposes mentioned in the by-law will be an ornament to the town and a credit to the enterprise of its citizens. The balance of the money is, according to the by-law, to be expended in "the construction of a bridge across the Moose Jaw creek. The experience of the past spring, proved conclusively that if the trade of the rapidly filling up country to the south east of the town is to be kept here, the citizens must stir themselves to provide means of communication at all seasons of the year. During high water, the river is impassable for teams, and last spring the settlers were forced to leave their teams on the east side of the river, and carry their goods across the railway bridge. They can not be expected to do this much longer, and there is nothing surer than that if a bridge is not built across the river, a considerable part of the trade that now comes to Moose Jaw will be diverted to other places. It is to the interest of every resident in the town that the most harmonious relations be preserved with the settlers of every part of the surrounding district, all working together for the development of the best district in the North West, and the building up of the best town in Western Assiniboia.

It is proposed to spread the payment over twenty years, the amount raised each year to be used for the creation of a sinking fund to meet the maturity of the debentures. The Council have acted wisely in providing for the issue of debentures bearing six per cent interest, as such can be negotiated to better advantage for the town than if they carried a higher rate.

The scheme of the Council is certain to meet the approval of the large majority of the property owners of the town. While we do not believe that it is a good policy on the part of any corporation to saddle a debt on the people, for useless expenditures, still in this case where it is proposed to expend the money for the best interests of the town, we hope there will be no factious opposition to the by-law. The citizens of Moose Jaw are justly proud of the fact that the town has not one cent of debenture debt, and up to the present has always had enough money in the treasury to meet current expenses. The time has now arrived when to continue the above state of town affairs it will be necessary to levy an exorbitant rate, to meet the payment of the fire engine, current municipal expenses and the maintenance of the school, without expending a cent in permanent improvements. We hope that there will be an unprejudiced discussion of this question and that all local jealousies will be laid aside for the general welfare of the town.

ASSINIBOIA AS SEEN BY A DAKOTAN.

In the Mellette, Dakota, Tribune of July 24th, Mr. T. W. Child, a farmer of Spink County, describes a trip made by him, to the "Dakota Settlement," north west of Yorkton, Assa. He describes the crops in Dakota, along the line of the great northern railway as follows:—

"From Aberdeen" 20 miles northwest crops were almost a total failure; from Rutland to Wahpeton, about 25 bushels per acre; in the Red River Valley excellent, the people claimed 20 bushels to 40 bushels per acre. North of Grand Forks the crop is heavier than south. Our old friend, Hon. F. A. Wilson, of Bathgate, Pembina county, expects 35 bushels and appearance throughout the county confirms his estimate.

In the city line, Winnipeg was a genuine surprise. "Nearly 400 miles north of Mellette [and Mellette is a trifle further north than Ottawa or Montreal] on the 50th parallel of latitude in a region supposed by most Americans to be too cold for anything but Esquimaux, reindeer and white bear, we found a city of 30,000 people, built mainly of brick and stone, the principal street two and a half miles long and 200 feet wide, electric cars, beautiful parks and groves, both public and private streets, paved with plank, stone and macadam. The city buildings are elegant, and the market, an institution wanting in so many American towns, not only large but a model of arrangement. From a tower of City Hall we had a bird's eye view of the handsomest city we ever saw—and we had seen cities before. An oblique

business man took us through a number of wholesale establishments and we were astonished at the amount of goods in stock. The Hudson Bay company carries a stock of \$1,000,000, of everything bought and sold by civilized man, and do a business of \$4,000,000 annually.

The Dakota settlement was described as "most beautiful to the eye, prairie, timber, lakes and meadows intermingled." Every Dakotan enthusiastic—every man having the very best quarter section in the country. The appearance of the crops, the distribution of the land and the indescribable beauty of the landscape certainly warranted their enthusiasm. Mr. Child then describes the land regulations and shows his fellow citizens how easy it is to secure land in the Canadian North West in comparison with what it is south of the boundary line. The condition of the settlers was described as follows:—

"Instead of temporary shanties we here saw fine farm buildings—the people were well clad, with good clothes and an air of prosperity, which confirmed the extraordinary claims as to crop yield in times past and present. In fact every kind of business seemed prosperous—with one marked exception. We looked in vain for the little offices with the shingles, 'MONEY TO LOAN,' 'FARM LOANS,' 'MONEY ON CHATELS,' 'LOAN & TRUST CO.,' etc. Real banks do a legitimate business. Money is worth 6 to 7 per cent."

Thursday we started for home highly pleased with all we saw, having found all and more than had been claimed by immigration agents. As to taxes: there is no tax on personal property. The only tax possible is limited to \$1 per quarter section, and that for school purposes solely. The Dominion Government pays a certain percentage of teachers' salaries according to grade of certificate, and supports the courts and police, and the latter are not a farce and sham with which we are too familiar. Special inquiry brought out the fact that around Yorkton last year the total tax was \$2.60 on a quarter section. It will never be higher until there is a sufficient population that believes in taxation as a source of wealth.

After two weeks of close personal observation I am satisfied that I have found the country that offers a refuge to the man who has after years of courageous labor and struggle found the odds against him too heavy. I would advise any man who finds himself impelled to leave Dakota to look at Assiniboia for a field of labor that will repay his toil.

CORRESPONDENCE.

We do not hold ourselves responsible for the opinions of our correspondents. No communication written on both sides of the paper can be inserted.

To the Editor of the TIMES.

DEAR SIR.—There seems to be a good deal of cold water thrown on the proposed By-law raising \$7000 to pay for the chemical engine, and make other permanent improvements. How any man with any calculating powers cannot see that it is the very best thing that the town can do under the existing circumstances is a mystery to me. It is well known that it will reduce this year's taxes nearly one-half and will in the future not exceed 20 mills on the \$, and if the School Board could only possibly reduce their expenses to anything reasonable our future rate should not exceed 15 to 17 mills on the \$. How it is necessary for the school to require \$3,350 is not only a mystery to me but to a majority of the ratepayers, and a mystery that it is hoped will be satisfactorily explained at an early date. It seems that quite a number who are opposing said By-law still feel sore on account of the defeat they sustained when the By-law asking for money to create a water system in town was not carried. If this "dog in the manger" business continues, our town will never go ahead. Gentlemen when you take time to consider this scheme and see that it means one-half reduction on your taxes this year and not any more in the future than 15 to 17 mills on the \$. I feel satisfied that any ratepayer who has the interest of the town at heart will support the By-law. I might mention one fault found by those opposed to the By-law, viz.:—That the money asked for is too much, that a building suitable for the engine alone would be quite sufficient and that nothing be appropriated for a bridge on Manitoba street. This idea I think is one only that has origin in small minds. Why build a shack for the engine which will be a disgrace to our town? Build a good town hall that our citizens need not

be ashamed of, one that will be ornamental as well as useful, and one that the town can realize something out of. We at present are paying \$50 per year for a Council Chamber, and each public meeting that is held costs the town \$5 at the least. Say eight of these are held in a year; this with the rent that can be secured from other sources for the use of the hall will, safe to say, reach \$200, which will more than pay the interest on the cost of the hall. With regard to the bridge I will say nothing, only that it is a necessity and one that if not overcome in the near future will injure our town more than many are aware of, as it is a well known fact that the country around Pasqua is fast settling up and in a very short time if access to Moose Jaw is blocked for the want of this bridge, some enterprising man will step into Pasqua and open up business, and in a very short time we will be reaping the fruits of our miserly natures. Thanking you for space occupied and once more asking that before deciding against the proposed By-law that all ratepayers will consider the facts fairly and squarely with unprejudiced minds, and with me, vote for the By-law.

MAN AROUND TOWN.

SIR HECTOR'S RESIGNATION
What the Ottawa Citizen Says of the French Conservative Leader.

OTTAWA, Aug. 11.—Surprise was expressed this morning when the Citizen, government organ, announced Sir Hector's resignation as Minister of Public Works. It was generally supposed that he would not withdraw from the government until after the session. The Citizen says: "This morning Sir Hector Langevin, Minister of Public Works, will appear before the privileges and election committee for the purpose of making a statement in connection with the Tarte-McGreedy enquiry. It is understood the honorable gentleman has tendered his resignation as a minister of the crown, considering that it was his duty to parliament, the government and the committee. If this is true, Sir Hector Langevin is what his friends always thought him—a chivalrous and high-minded believer in constitutional precedent even to a degree really unnecessary under existing circumstances. Though Sir Hector Langevin's enemies triumphed it would be a real Cadmean victory, for the day may come that his persecutors will realize how unjust have been the tactics resorted to in attempting to destroy one who, for twenty-five years, was the official colleague of his late leader, Sir John Macdonald. We deplore the fact that he has been placed in a position reflective to his credit; but the end is not yet. We do not believe that either Liberals or Conservatives desire to establish wrongdoing on his part. We do not believe they can even though so desirous. He is a man more to day. This is an answer speaking trumpet to those in his favor. For many years a splendid departmental administrator, one who has performed the work of two ministers in his department, who has never permitted his party politics to prompt him to do an injustice, it is well that he is about to be judged by his peers, well that the high court of Parliament is about to render the verdict by which he must stand or fall. Partisan real may mislead a few, but the grand principle of fair play, of generous consideration, of broad minded and manly, disinterestedness, will doubtless secure for the veteran statesman treatment worthy of those who have known and respected him so long a time. Sir Hector has been the leader of the French Canadian Conservatives for many years; he has been honored by men of all classes, creeds and sections; and we look for his triumphant vindication ere the unpleasant proceedings terminate."

DEATHS.
McNEIL—In Moose Jaw on Wednesday August 12th, the wife of Mr. John McNeil of twins, son and daughter.

DEATHS.
McNEIL—In Moose Jaw, on Wednesday August 12th, the infant son of Mr. and Mrs. J. McNeil.

PROCLAMATION.
Notice is hereby given that in accordance with a resolution of the Council of the Municipality of the Town of Moose Jaw, passed on the third day of August, I hereby proclaim Saturday, the 15th day of August, 1891, a Civic Holiday in and for the Town of Moose Jaw, and request that all loyal citizens observe it as such.

JOHN RUTHERFORD, Mayor.
Dated, Moose Jaw, August 12th, 1891.
God Save the Queen.

impurities from a Pimple to
the worst Scrofulous Skin.**Homestead Regulations!**
All even-numbered sections of Dominion Lands in Manitoba or the North West Territories, excepting 8 and 16, which have not been homesteaded, reserved to provide wood lots for settlers, or other purposes, may be homesteaded by any person who is the sole head of a family, or any male over eighteen years of age, to the extent of one quarter section of 160 acres, more or less.**ENTRY.**
Entry may be made personally at the local land office in which the land to be taken is situated, or if the homestead applicant is unable to appear in person, he may, on application to the Minister of the Interior, Ottawa, or the Commissioner of Dominion Lands, Winnipeg, receive authority for some one to make the entry for him. A fee of \$10 is charged for an ordinary homestead entry; but for lands which have been occupied an additional fee of \$10 is chargeable to meet inspection and cancellation expenses.**HOMESTEAD DUTIES.**

Under the present law homestead duties may be made anywhere for the first two years, after which the following conditions he elects to hold his land:

1. Three years cultivation and residence, during which period the settler may not be absent for more than six months in any one year without forfeiting the entry.
2. Residence for three years anywhere within six miles of the homestead quarter section, and afterwards actual residence in a habitable house upon the homestead for three months next prior to application for patent. Under this system 10 acres must be broken the first year after entry; 15 additional in the second, and 15 in the third year; 10 acres to be in the second year and 25 acres the third year.
3. The 3 years system under which a settler may break five acres the first year, cropping those five acres and breaking 10 acres additional the second year and also building a habitable house before the end of the second year. The settler must commence actual residence on the homestead at the expiration of two years from date of entry, and thereafter reside upon and cultivate his homestead for at least six months in each of the three next succeeding years.

APPLICATION FOR PATENT

may be made before the local agent, any homestead inspector or the intelligence officer at Medicine Hat or Qu'Appelle Station. Before making application for Patent the settler must give 6 months' notice in writing to the Commissioner of Dominion Lands of his intention to do so.

INTELLIGENCE OFFICES

are situated at Qu'Appelle Station and Medicine Hat. Settlers arrived immigrants will receive at any of these offices information as to the lands that are open for entry, and from the officers in charge, free of expense, advice and assistance in securing lands to suit them.

A SECOND HOMESTEAD

may be taken by anyone who has received a homestead patent, and desires of more registered land, or a certificate of recognition of the Commissioner of Dominion Lands upon application for patent made by him, or his married wife to his first homestead on, or prior to, the 2nd day of June, 1887.

INFORMATION.

Full information respecting the land, timber, coal and mineral laws, and codes of regulations, as well as those respecting Dominion Lands in the British Empire, may be obtained upon application to the Secretary of the Department of the Interior, Ottawa; the Commissioner of Dominion Lands, Winnipeg; or to any of the local land offices in Manitoba or the North West Territories.

TOWN AND COUNTRY.

Buffalo Lake and Carmel schools, re-opened, after the midsummer holidays, last Monday morning.

Forty-five binders have been sold this season by our local machine agents.

Mr. T. W. Robinson, general merchant, left on Saturday evening's express for a month's visit to Ontario.

Two first-class rooms to let—Gentlemen preferred apply to—
F. G. HERRLER, Manitoba street.

Mr. Wm. Walsh, has received a car load of young Ontario mares from Ontario, which he is offering for sale.

Mr. T. E. McWilliams, rancher in the Durt Hills, is in town this week. He reports that hay is very plentiful in the hills this year and that his cattle are doing well.

Mr. Wm. White of Pasqua, received by C. P. R. on Tuesday last, one of Massey & Sawyer's traction engines and threshers, purchased through their agent Mr. A. E. Potter.

FOR SALE.—A first-class buggy. Nearly New Will be sold cheap. For further particulars apply to W. D. FALMER, Moose Jaw.

Mr. E. Love, of the Pense district was in town yesterday. He will commence cutting barley on Monday and as soon as he finishes his barley, his plough will be ready for the binder.

Mr. M. Macleod, who for the past two years, has filled the position of line repairer on the C.P.R. from Broadway to Swift Current, has been promoted to Winnipeg. His place will be filled by Mr. S. McDermott, late of Winnipeg.

Mr. D. J. Maclean, sheep rancher of Eyebrow Lake ranch, on the Big Aris, last week, sold five hundred fat wethers to Mr. C. Gallagher, butcher of Regina. Altogether this season Mr. Maclean has sold \$3,200 worth of wool and mutton off his ranch.

WANTED.—Immediately a good general servant. Apply to—
Mrs. G. M. ANNABLE.

Mr. D. E. Rothwell, who for the past two and a half years has been connected with the TIMES, left on Monday evening for Denver, Colorado. During his residence in Moose Jaw, "Den" made many friends who all wish him a pleasant trip.

The Golden Era, a four page, twenty column paper, published at the new town of Golden, B. C. is the latest addition to our exchange list. The first number dated August 8th, is full of interesting mining and smelting news and is nicely printed.

MONEY TO LOAN—Private Funds—on Improved Real Estate Securities—J. G. Goss.

Mr. D. L. Cavan, Colonization Agent for the C. P. R. passed through Moose Jaw on Tuesday evening on his return from Calgary, whither he had accompanied a delegation of farmers from Muskoka, who are examining the country for a location for about 100 families who wish to come to the North West.

The Calgary Orange Lodge has tendered a banquet to Mr. Wm. Johnson M. P. of Ballykilbeg, Ireland, which has been accepted. The banquet will take place on the evening of the 19th August. Mr. Johnson is Sovereign Grand Master of the Orange Grand Lodge of the World.

Canada Permanent Loan and Savings Co Money to Loan. Apply to, Wm. GRAYSON.

The Moose Jaw High and Public schools, re-opened, on Monday morning. Principal J. A. Calder B. A. has returned from his holiday trip to Ontario and will have charge of the high school department. Mr. Hamilton Lang as first assistant, will prepare pupils for entrance to the high school department. During the vacation the School Board engaged two new teachers, and fitted up a fourth department, to accommodate our increasing school population. Mr. Donald Grant, and Miss Burnett, will have charge of the two primary departments. With an efficient staff of teachers, and a school building, fitted up with all the modern educational appliances, good work and a return for the money expended, may be expected from our educational institution.

Wm. A. Sharples and Nora Stevenson, pupils of the Moose Jaw school were successful at the late High School Entrance Examination.

Mrs. McDonald and Miss McDonald, mother and sister of the McDonald Bros., of Moose Jaw, arrived from Ontario, last Friday morning and will make Moose Jaw their future home.

Tomorrow, Saturday, has been proclaimed a civic holiday by His Worship Mayor Rutherford.

The sunlight falls on sacred walls. The window is raised once more. The fresh wind frisks through the editor's window. And the clippings blow out of the door. Old City Blizzard.

Mr. J. Melhuish's new tailoring establishment has been removed to the Bradshaw block.

Mr. Jas. McMillan of 30-15-25, commenced wheat cutting yesterday. His crop is excellent, and the sample better than in any previous year.

FOR SALE.—One span of young mares one wagon and a set of harness, nearly new. Will be sold on reasonable terms. Apply to—
RUSSELL WILSON, Moose Jaw.

The fifth annual excursion and picnic of the C. P. R. employees will be held to-morrow at QuAppelle. As the fare has been placed very low and a good programme of sports promised, it will no doubt be largely patronized. The proceeds will be devoted to the library and reading room fund at Moose Jaw.

The following are the names of the Goshawks cricket team who go to Fort QuAppelle to-night to play a match with the Fort cricketers to-morrow:—
Allan Tuxford, W. B. Crosbie, A. Jefford, G. Tuxford, C. E. Green, J. Blackburn, J. H. Ross, S. N. de P. Green, J. Hammond, T. E. Birbeck, and R. McCartney.

A mounted policeman met with rather a painful accident at Medicine Hat last Sunday evening. He was passing by the shed built above the gas well, pipe in mouth when he thoughtlessly put his head through the open door. The building was full of gas, which, igniting, caused an explosion, which threw Thompson back several feet. His face was badly burned. The building was burned to the ground.

WANTED.—A good servant girl. Highest wages will be paid. Apply to—
Mrs. W. A. PORTER.

Professor J. W. Robertson, Dairy Commissioner and Agriculturist to the Central Experimental farm at Ottawa will address a meeting of farmers in Moose Jaw on Monday afternoon next at 3 o'clock, on "The Farming for the North West and Dairying." As many as possible of the farmers in the district should be present to hear the lecture, as it will, no doubt, be both interesting and instructive.

The west bound express was 6 hours late on Sunday morning. The delay was principally caused between Toronto and Winnipeg, by the large numbers of men en route for the Manitoba harvest fields, which made the train very heavy. A hot box on the baggage car also delayed them considerably from Winnipeg, west. The train consisted of a baggage, express, four colonist, a first class and Pullman cars.

Go to Bellamy's for the Celebrated Doherty Organ, Evans' Piano and White's Sewing Machine.

Yesterday afternoon, a test was made in town of the Ever Ready Fire Extinguisher, the invention of Mr. McRobbie, ex-chief of the Winnipeg fire brigade. A pile of inflammable debris thoroughly soaked with coal oil was placed on the corner of Main and High streets, and ignited. After the flames had made considerable headway a quantity of the liquid was thrown on the fire, completely extinguishing it, and proving that it is possessed of qualities, deadly to fire. Judging from yesterday's test, Mr. McRobbie's invention is a valuable one, which will be universally adopted as an extinguisher of small fires. A large crowd witnessed the test and were thoroughly satisfied as to the merits of the Extinguisher.

Lacrosse Notes.

A meeting was held in the C. P. R. Employees' Reading Room on Tuesday evening last, for the purpose of organizing a lacrosse club, in the town of Moose Jaw. There was a large attendance of the athletes of the town, among whom were several old-time lacrosse players. It was decided that the new club be known as the Moose Jaw Lacrosse Club, and that the membership fee be fifty cents. The following officers were elected for the season 1891: President, W. A. Porter; Vice-President, J. Franks; Secy.-Treas., J. E. Kerr; Executive Committee, J. A. Calder, J. F. Watkins, C. F. Smith. A challenge was received from the Regina club to play a match at QuAppelle on Saturday, August 15th, which was accepted.

Monday, Wednesday and Friday evenings were selected for the regular practice nights of the club.

From the interest taken in the new lacrosse club, we may expect our boys after a little more practice, to be prepared to cross sticks with any team in the North West.

The following are the names of the players who will take part in the match at QuAppelle on Saturday:—
McCullough, Fisher, Calder, Melhuish, Holden, Blackburn, Rutherford, Smith, Watkins, McRae, Franks, Hamilton. Spars—Simington, McNutt, and Baxter.

On Saturday last the Directors of the Moose Jaw Agricultural Society held a meeting in the Secretary's office. A communication was read from the Lieut. Governor stating that a cheque had been issued for \$98, amount of grant for last year. Messrs. Battall and Alexander reported that they had attended the meeting of the Town Council and laid before it a plan showing what streets it would be necessary to close in order that a suitable place of ground might be purchased where the old race track is, to be used as an agricultural fair grounds, and on motion passed by the Council a committee of the whole Council was appointed to go and see the grounds and report. There were only three of the Council present and these were not in favor of closing the streets as required. A committee of the Directors was appointed to wait on the Council at its next meeting and urge the desirability of granting the request as set forth in the letter sent them by the Secretary re. closing up certain streets. It was arranged to hold the Fall Show on October 17th. The Secretary reported that the prize list was about printed and that they would be ready for distribution soon.

CARON.

The Public School has closed for vacation.

Crops in this vicinity are excellent those of Messrs. Jas. and Edward Hawkes being considered especially good.

Messrs Getty and Dalrymple paid us a flying visit last Sunday.

The following is the report of Caron school for the month of July:—

Third Class—Arthur Hewitt, 106; Mary Hans, 46. Second Class—Evert Hawkes, 135; Alice Colennutt, 113; Julia Colennutt, 94; Sarah Hans, 90; Edith Young, 88; John Hans, 84. Part Second Class—Willie McArthur, 130; Louis Hawkes, 114; Matthew Hans, 106. First Class—Frank Colennutt, 132; John Hans jr., 117; Harry Powell, 95; Eliza Hans, 83.

T. J. WILSON,

Teacher.

BUFFALO LAKE SCHOOL.

The following is the report showing the number of marks obtained by the pupils of Buffalo Lake school for the month of July:—Total 150. Fourth Class—Kate Taylor, 71. Sr. Third Class—Charlie Taylor, 96; James McCartney 90. Jr. Third Class—Sadie McCartney 110; Malcolm Taylor 103. First Class—Maggie Franks 94; Annie Taylor, 93; Willie Franks, 80.

Don't Miss it.

A new and attractive publication containing many useful, interesting and instructive features has just been issued by T. Milburn & Co., of Toronto, under the title of the Burdock Blood Bitters Almanac for 1891. It is now in the hands of the druggists and merchants for free distribution and we would promise our readers to secure a copy before the supply is exhausted.

FOR DYSPEPSIA,

Ayer's Sarsaparilla
Is an effective remedy, as numerous testimonials conclusively prove. "For two years I was a constant sufferer from dyspepsia and liver complaint. I doctored a long time and the medicines prescribed, in nearly every case, only aggravated the disease. An apothecary advised me to use Ayer's Sarsaparilla. I did so, and was cured at a cost of \$5. Since that time it has been my family medicine, and sickness has become a stranger to our household. I believe it to be the best medicine on earth."—
—P. F. McNulty, Hackman, 29 Summer St., Lowell, Mass.

FOR DEBILITY,

Ayer's Sarsaparilla
Is a certain cure, when the complaint originates in impoverished blood. "I was a great sufferer from a low condition of the blood and general debility, becoming finally so reduced that I was unfit for work. Nothing that I did for the complaint helped me so much as Ayer's Sarsaparilla, a few bottles of which restored me to health and strength. I take every opportunity to recommend this medicine in similar cases."—
—C. Erick, 14 E. Main St., Chillicothe, Ohio.

FOR ERUPTIONS

And all disorders originating in impurity of the blood, such as boils, carbuncles, pimples, blotches, salt-rheum, scald-head, scrofulous sores, and the like, take only

Ayer's Sarsaparilla
PREPARED BY
DR. J. C. AYER & CO., Lowell, Mass.
Price 25¢, six bottles, \$1.50. Worth 50¢ a bottle.

WM. WALSH.

BY-LAW
NO.--
Of the Town of Moose Jaw
to Raise by Way of Loan
the Sum of
\$7000.00.

Whereas it is necessary and expedient to raise by way of loan the sum of \$7000.00 for the following purposes, namely:— \$2000.00 to pay the balance on a chemical engine purchased by the said town and freight thereon; \$3000.00 for the erection of a two storey brick building in the said town to accommodate the said engine and a caretaker, therefor, with provision for a Council Chamber and Clerk's and Treasurer's offices and the second story thereof for a Public Hall; \$2000.00 for furnishing said building; and the balance for the construction of a bridge over the Moose Jaw Creek in the said town. And whereas the value of the rateable property of the said Town according to the last revised assessment roll is \$196,630.43, and whereas it is deemed expedient that said loan shall be for the period of twenty years with interest at the rate of six per cent. per annum payable half yearly; and whereas in order to discharge the said principal money and interest accruing due on such debt as the said debt, and interest becomerespectively payable according to the terms of this By-law there will require to be raised each year of the said loan the sum of seven hundred and seventy dollars; and whereas it will require an equal annual rate in addition to all other rates of four mills on the dollar in each year of said loan for paying the interest thereof and creating an equal yearly sinking fund for paying the principal of the said debt; and whereas there is now no debt on the Municipality of the Town of Moose Jaw:

Therefore the Council of the corporation of the Municipality of the Town of Moose Jaw enacts as follows:

1. This By-law shall take effect on, from and after the eighth day of October, 1891.

2. That there be levied and raised an equal annual and special rate of four mills on the dollar in addition to all other rates on the whole rateable property of the said Town of Moose Jaw in each and every year of the years 1891, 1892, 1893, 1894, 1895, 1896, 1897, 1898, 1899, 1900, 1901, 1902, 1903, 1904, 1905, 1906, 1907, 1908, 1909, and 1910.

3. For the purposes aforesaid the Mayor of the corporation of the Municipality of the Town of Moose Jaw shall cause any number of debentures of the said Town of Moose Jaw to be made for such sums of money as may be required for the said purposes not less than one hundred dollars each and not exceeding in all the sum of seven thousand dollars and payable in twenty years from the day this By-law takes effect, which said debentures shall be sealed with the seal of the corporation of the Municipality of the Town of Moose Jaw and signed by the Mayor or by such other person as may be hereafter authorized by By-law of the said Council to sign the same, and countersigned by the Treasurer or by such other person or persons as the Council may hereafter by this By-law appoint.

4. That the debentures shall be made payable in twenty years from the day herein before mentioned for this By-law to take effect at the Bank of Montreal in the city of Winnipeg, Manitoba, and shall have attached to them coupons for the payment of interest at and after the rate of six per cent. per annum payable half yearly from the day of the date thereof.

And it is further enacted by the Council of the corporation of the Municipality of the Town of Moose Jaw that a poll shall be held and the votes of the electors entitled to vote on this By-law be taken on Saturday, the Fifth day of September, 1891, at the Council Chamber in the town of Moose Jaw, commencing at the hour of nine o'clock in the morning and closing at the hour of five o'clock in the afternoon of the same day, and that the Returning Officer for taking the said vote shall be Seymour N. de P. Green.

The said Returning Officer shall sum up the number of votes for or against this By-law on the Seventh day of September, 1891, between the hours of ten and eleven o'clock in the forenoon at the Council Chamber.

NOTICE.

The above is a true copy of the proposed By-law to borrow \$7000.00 for the purposes therein mentioned which will be taken into consideration after one month from the first publication thereof in the issue of the Moose Jaw Times newspaper published on the Fourteenth day of August, 1891, and the poll will be held for taking the votes of the electors at the Council Chamber on Saturday the Fifth day of September, 1891, between the hours of nine o'clock in the morning and five o'clock in the afternoon, of which all persons interested are required to take notice.

HOW TO BATHE IN WINTER.

Some Valuable Hints from a Physician on an Important Subject.

"I will tell you how to get a Russian steam bath at home that will be nearly as satisfactory as if you paid \$1 for it at an hammam," said the physician. "Just have a big firebrick heated red hot in the kitchen range and place it upon an iron stool or some such thing. Then stand a chair over the stool. Sit down on the chair and have a four beaved screen put around you, with a blanket thrown over the top. Thus you will find yourself in a sort of closet, and, having been previously provided with a jug of hot water, you anuse yourself by pouring it very slowly over the hot brick. The water, transformed immediately into steam, fills the inclosed space and at once induces violent perspiration."

"It would take more than \$1 to induce me to go through such a self inflicted ordeal," remarked The Star reporter. "A cold bath is good enough for me."

"Do you mean cold air or cold water?"

"Why, cold water, of course; I never heard of such a thing as a cold air bath."

"Cold air baths are excellent, nevertheless, and I strongly recommend them as a tonic for persons who are not strong enough to indulge in cold water. In taking one the bath should open a bedroom window wide—upon rising in the morning is the proper time—and stand in the cold air perfectly nude, meanwhile rubbing the limbs and body vigorously with a dry towel. There is no danger of catching cold, even when the thermometer is down to zero outside, for the reason that the sensitive pores of the skin contract under the exposure so as to make it a first rate protection."

"As for cold water baths, I deem them excellent for people of abundant vitality, but the trouble is that very many who take them are not strong enough to endure their effects. Nobody who is in the least delicate should ever touch cold water for bathing purposes. In the case of a robust individual, the blood driven from the surface of the body by cold water comes quickly rushing back again under the ministrations of a brisk rub and a delightful glow is felt. But a weakly person, whose vital organs are not sufficiently vigorous to send the blood swiftly back to the superficial blood vessels, fails to experience the health-betokening reaction and is very apt to feel a faintness instantly. However, there are mild ways of taking cold water baths which do very well in winter, as well as in summer, for those who are only moderately vigorous."

"Such as what, doctor?"

"The mildest process is simply to dip a towel in cold water and wet only one portion of the body at a time, taking the parts successively—first an arm, then a leg, and so on until the abdomen is completed, each part being rubbed dry before the next is moistened. In this way shock is avoided. For a reasonably strong person the best plan is to use a towel soaked in cold water in the ordinary fashion, with a thorough rubbing, of course, to follow. But do not indulge in any of this nonsense in the way of harsh towels and flesh brushes, which merely serve to get up local irritation; soft towels are much better to rub with. A gentler method of cold bathing than the plunge, and a very good one, is to stand up in the tub and squeeze sponge over your head; a disadvantage of this plan is that it is rather too shivery to be comfortable. The kind of bath I usually advise, unless the patient is weakly, consists in going over the entire body, after getting up each morning, with a towel wrung out in cold water as quickly as possible, the dry rub following. In rubbing after a bath the attention should be given almost wholly to the limbs; the body circulation is active enough to take care of itself."

"How about hot baths?"

"Hot baths are useful, but too hot, and they should not be stayed in long. The effect will be to partially paralyze the little blood vessels that form a network all over the body beneath the skin, thus disordering the circulation. You can see this quickly for yourself by observing how quickly the fingers become wrinkled at the extremities when held in hot water, the blood leaving the surface. The best time to take warm baths is at night, and two a week are plenty for the purpose of cleanliness. Bathing is frequently overdone by people who are over nice about their persons. Turkish baths should not be taken on cold days, unless the bath is very remarkably robust, and never more than once a week. I am not in favor of too much bathing." —Washington Star.

Gift for the Birds.

A pathetic scene has been witnessed in the village of Danville for a week or two on account of the death in that place of Mrs. Lewis Worden, a modest philanthropist, of Connecticut. For forty years Mrs. Worden had dwelt in Danville, and in that time, it is said, never saw a case of human or brute suffering without endeavoring to alleviate it. She was especially the friend of all dumb animals. For twenty or thirty years she had fed wild birds under the window of her house regularly each day, and all kinds of birds gathered there daily at all seasons. There were scores of little feathered creatures, and their noisy chirping attracted the attention of passers a hundred yards away. After gathering the shower of crumbs that were tossed to them, they perched on the window sills of the house and on the fences and had a regular thanksgiving breakfast of songs. After Mrs. Worden's death there was no one to feed them, but they have gathered under the window daily and expressed their astonishment in the most unaccountable character. They are mostly sparrows at this season. —Norwich (Conn.) Telegram.

Choosing the most recent American product, it is said to be composed of silica, alkali and borate.

There are 82,000 benefit and burial clubs registered in England and Wales, with funds which amount to \$11,000,000.
